

Troubleshooting Signal Strength

One

Confirm that there is cell signal in the area

Two

Make sure antennas are outside the machine

Three

Verify that the antennas are plugged in

Four

Place antennas as far apart from each other as wires will allow

Five

Double check that antenna wires are not coiled or bundled

STILL EXPERIENCING SIGNAL ISSUES?

If you are still experiencing signal strength issues after reviewing the above steps, please call +1 888-561-4748 or email Customer Support at customerservice@cantaloupe.com
